CASE STUDY #68

PTA Bus Depot Facility

AUSPAN Scope Outline

Value Bracket | \$250-500K

Manufacture | 12 weeks

Site Time | 18 Days

Busselton Bus Depot, including; Workshop, Wash Down Bay, Storage Enclosure, and Office Area.

CLIENT BRIEF

Robinson Buildtech utilised AUSPAN's Design & Construct capabilities to assist their tender submission for a project which involved the Design and Construction of a Bus Depot for the PTA.

AUSPAN'S SOLUTIONS

AUSPAN provided a Design & Construction package for supplying the structural steel shed & office structure for Robinson Buildtech to fit out. Particular care was required in providing the most cost effective solution available to give them an advantage to win the tender.

Challenges

The sandy site proved challenging for initial crange requirements.
Adherence to PTA (Public Transport Authority) specifications including stringent surface treatment requirements.

Features

- ▶ 2T Mono Rail crane incorporated into shed design
- ▶ The office roof structure and wash bay were incorporated as part of the shed
- ▶ Translucent division wall supplied & installed by AUSPAN which offered protection from the weather while still allowing natural lighting in.
- ▶ Bin store designed and constructed by AUSPAN
- ▶ Electric roller shutter doors

IN OUR CUSTOMER'S

OWN WORDS...

I have found all of the staff at Auspan friendly, professional and very easy to deal with.

Dean Robinson – Managing Director

IN AUSPAN'S

OWN WORDS...

A rewarding project with some interesting challenges as it was AUSPAN's first project to PTA spec's. AUSPAN's ability to reduce the installation time frame and work in close co-ordination with other trades was rewarding for all stakeholders: Public Transport Authority, Robinson Buildtech & Auspan.

Ben Richardson – Project Manager

It was a pleasure to assist the build with Dean & the team at Robinson Buildtech. Very rewarding project everytime I drive past.
