**CASE STUDY #108 - New Bus Depot in
Cockburn, WA, for Australian Transit Group**

CASE STUDY #108

New Bus Depot in Cockburn, WA, for Australian Transit Group

AUSPAN Scope Outline

Value Bracket | \$250-500K

Manufacture | 11 weeks

Site Time | 17 Days

New Bus Depot in Cockburn, WA, for Australian Transit Group.

CLIENT BRIEF

Ben Doolan of ATG (Australian Transit Group) engaged Auspan from the initial design of his new bus depot facility which is now the base for moving up to 25,000 passengers throughout WA in a single day.

AUSPAN'S SOLUTIONS

AUSPAN partnered with a project management company to deliver the efficient Bus Depot facility which now includes everything from office space, maintenance bays, bus wash facility and parking.

Challenges

Minor challenges of this project included conducting the AUSPAN roof lift installation system alongside concrete tilt panel office walls.

Features

- ▶ Six complete drive through maintenance bays
- ▶ Tilt panel office with suspended slab second story
- ▶ Architectural awning/shades to front office area
- ▶ Mezzanine storage area
- ▶ Roof cover to bus wash facility

IN OUR CUSTOMER'S

OWN WORDS...

Very Happy – AUSPAN was easy to work with and offered prompt service throughout the whole process of getting our new bus depot functional. I was happy to use a company based in the country – good for local employment and far better service than I would expect from any city companies.

I have done and would highly recommend AUSPAN to anyone looking to build a new shed or factory.

Ben Doolan, Managing Director

IN AUSPAN'S

OWN WORDS...

Thanks to Ben, Frank and the entire project team - great to be involved in the design and construction of this facility from start to finish.
